Meanings of the Pinnacles. The meanings are very similar to the definitions for each number.

1. Building cycle
2. Partnerships
3. Self expression
4. Discipline
5. Freedom
6. Responsibility
7. Introspective
8. Success
9. Completion

Keep in mind that every number has a positive and negative meaning. For example, the number 9 can be the Humanitarian or the selfish individual. And, these characteristics can vary by degrees depending on how many nines are in the person's chart.

Getting back to Jane, she has a 1 pinnacle of attainment. Combined with her I birth path, I would say that this is a pretty head strong person. Very determined to get her own way when she was young. Her saving grace is the 3 sub cycle which gives her plenty of charm and charisma.

Her 2nd pinnacle. The Pinnacle of Obligation is an 8. The number of success. This fits nicely with her number 1 and 3. Determined to be successful and meeting the right people to further her career. Enter the 7 sub cycle with the 8 pinnacle, and I can easily envision a successful science fiction writer.

Jane's 3rd pinnacle, the pinnacle of foundation is a 9. Perhaps, she is involved in various charities. She may travel a great deal out of the country to further her work. 9 the number of completion fits very well with writing book after book.

And finally, the 4th pinnacle, the pinnacle of retrospection is a four the number of discipline. Combined with her 1 sub cycle leads me to believe that Jane will never retire but will continue her life work indefinitely. Possibly even teaching and mentoring other.

Personal Year cycles

In numerology, all numbers are broken down into single digits 1 through 9. Likewise our personal year cycles are broken down into 9 year periods. Personal year cycles give us a clue as to what to expect in the upcoming year. They are also useful as a focus on the individual year to help keep us on track as to what we should be paying attention to. Personal year cycles run birthday to birthday.

To find your personal year, we will use Jane as an example. DOB 12/7 / 1963

12 + 7 + the calendar year

Jane's birthday falls in December. So when you are calculating the chart, say in June of 1995 for Jane who has not yet had her birthday, you would use 1994 as the year.

12 3
7 7
1994 5

15 = 6 Jane's personal year number is a six
